

SHUBHAM JAIN

DEVOPS ENGINEER | CLOUD ENGINEER

Pune, Maharashtra | +91-7558468948 | shubhamjain9005@outlook.com | [Linkedin](#) [MEDIUM](#)

SUMMARY

Cloud & DevOps Engineer with **4 years of experience** in cloud platforms, CI/CD automation, and container-based deployments. Experienced with **Docker and Kubernetes** for building and managing scalable applications. Hands-on experience in **monitoring and observability** using **Prometheus and Grafana** to ensure system reliability and performance. Experienced in automating infrastructure, improving delivery pipelines, and optimizing overall system performance.

TECHNICAL SKILLS

- **AWS Services:** EC2, VPC, S3, CloudWatch, IAM, EKS, ECR, ECS, ROUTE 53, Cloud Front, RDS, Backup-DR tools.
- **Containerization & Orchestration:** Docker and Kubernetes.
- **Infrastructure as Code (IaC):** Terraform
- **CI/CD :** Jenkins, GitHub Actions
- **Monitoring & Logging Tools:** CloudWatch, Prometheus, Grafana
- **Databases:** MySQL, Amazon RDS, MongoDB

CERTIFICATIONS

- **AWS Certified Solutions Architect – Associate.**

WORK EXPERIENCE

CAPGEMINI, PUNE

DEVOPS ENGINEER

APRIL-2025 TO CURRENT

PROJECT: NATIONAL STOCK EXCHANGE (NSE)

- Designed and automated **Jenkins CI/CD pipelines** for **microservices applications**, reducing manual deployment effort and improving release reliability.
 - Built and optimized **Docker images** with **multi-stage builds** and enabled containerized deployments for **frontend, backend, and microservices applications**.
 - Managed **end-to-end CI/CD pipelines** for **application and database components**, streamlining **multi-tier deployments** across environments.
 - Automated **application configuration (.properties) deployments** and integrated **Python scripts** into **CI/CD workflows** to reduce manual effort and errors.
 - Implemented **Flyway database migration pipelines** and **SonarQube quality scans**, improving **deployment consistency** and **code quality**.
 - Managed **JFrog Artifactory**, **Jenkins agents**, and Docker hosts, **troubleshoot pipeline issues** and **reduced deployment downtime**.
 - Coordinated with **cross-functional teams** and stakeholders to ensure timely resolution of **high-priority (P1/P2) incidents**.
 - Monitored applications using **Prometheus and Grafana** and provided deployment, support, and troubleshooting in **Unix/Linux environments**.
-

- **Monitored cloud infrastructure** and application performance using **AWS CloudWatch** to ensure timely resolution of issues.
- Responded to and resolved customer inquiries and issues related to **AWS EC2, S3**, and other services, providing timely and effective solutions.
- Configured and managed **IAM roles, security groups, and network ACLs** to ensure secure and compliant access to AWS resources.
- **Troubleshooted and resolved EC2 instance** issues, including debugging, resizing, and implementing auto-scaling to optimize workload performance.
- Conducted in-depth analysis of recurring issues, providing detailed solutions and implementing preventive measures to reduce future incidents.
- Designed and implemented robust backup and disaster recovery strategies using **AWS snapshots and AMIs**.
- Analyzed resource utilization and implemented **cost-optimization strategies**, including rightsizing and **reserved instances** Ensured adherence to service level agreements (SLAs), maintaining high customer satisfaction and resolving issues promptly.
- Developed and maintained standard operating procedures (SOPs) for cloud infrastructure management, improving team efficiency and reducing error rates.
- **Collaborated with internal teams**, sharing knowledge and best practices to improve overall cloud infrastructure management and support.

PROJECTS

- **Project 1- AWS Infrastructure Automation using Terraform and Jenkins**
- **Project 2- Kubernetes Three-Tier application deployment**
- **Project 3- AWS Three-Tier Application Design and Deployment**

EDUCATION

Bachelor of Technology (B-TECH)

- D.Y. Patil University, Pune
- 2016 - 2020

EXTRACURRICULAR ACTIVITIES

- **AWS Summit, Mumbai**
- Attendee - 2019
- **DevOps Event, Blazeclan Technology**
- Attendee - August 2024
- **Technical Blog**
- <https://medium.com/@shubhamjain9005>
